

## Implant Surgery

- 1- You may experience some discomfort and bleeding the day of the surgery.
- 2- Take all medication that was prescribed for you according to instructions.
- 3- Apply an ice bag on your face over the surgical site on the day of surgery for 10 minutes on and 5 minutes off.
- 4- Keep your next appointment on time for removal of sutures and follow up checks.
- 5- DO NOT raise your lips with your fingers to inspect the treated area.
- 6- DO NOT brush teeth near the surgical site. Brush teeth in the rest of your mouth.
- 7- There is often a temporary loss of feeling in the operated area and the tooth may feel loose.
- 8- Do not smoke, spit, or use a straw on the day of the surgery (avoid smoking for a few days after the surgery).
- 9- Should any difficulties occur, do not hesitate to call our office anytime. In case of serious emergencies call 911.

**Problems** – if you have any questions or think that the post-treatment progress is not proceeding properly, please refer to our website for helpful information or contact our office at **706-658-2383** or Dr Nick's emergency phone number **678-653-3717**.
